

The world has a deadline

2030 is 4 years away.

Most SDGs are off track.

AI is the fastest tool we have !

17

SUSTAINABLE DEVELOPMENT GOALS

In 36 hours, build something that brings us instantly closer to 2030.

Open innovation track with S2S Ventures

Must use AI

Machine learning, LLMs,
computer vision, or agents

Must address SDGs

Explicitly tied to 1 or more
UN goals

Must have startup potential

Bring open innovation to its
maximum.

We invest in Switzerland's **boldest** and
brightest student founders.

We are the **first believers** in
their ideas.

And we help them build **epic companies** by
adding real value.

OUR DEVELOPMENT **SO FAR**

33

Students
from all around
Switzerland

100+

Alumni
across
Europe

1.2

millions CHF
invested
so far

3

millions CHF
committed
to our fund

In the past 5 years, we have invested in more than 38 Swiss startups, supporting visionary founders and being their first believers.

AI x Sustainability

Climate & Energy

Grid optimization, carbon tracking,
renewable forecasting

Food & Water

Precision agriculture, supply chain
waste, water quality

Health Access

Diagnostics in underserved regions,
disease prediction

Education Equity

Personalized learning at scale in
low-resource settings

Urban Systems

Smart infrastructure, mobility,
emissions reduction

Biodiversity

Species monitoring, deforestation
detection, ocean health

Think like a founder

1 **A real problem**

Something people or the planet actually suffer from today

2 **An AI-powered solution**

Use the technology where it genuinely adds value

3 **A clear user or beneficiary**

Who does this help? How? Be specific.

4 **A path to impact**

How does this scale? What does success look like?

Build something you'd actually
want to see in the world.

Four things we look for.

01

Impact Potential

How real and scalable is the positive outcome?

02

AI Innovation

Does AI play a meaningful, non-trivial role?

03

SDG Alignment

Is the connection to a UN goal clear and genuine?

04

Execution & Demo

Does it actually work? Can you show us something real?

THE PRIZE

The S2S Ventures Case

- 1 1 month Claude Pro subscription**
- 2 A 60-minute hands-on session with the S2S Investment Committee, where the winners will receive feedback and support on their pitch and idea**
- 3 An invitation to join the next S2S Portfolio Summit, which will most likely take place in November**
- 4 Support from S2S in connecting the winners with relevant people from our network in case they want to pursue their idea**
